The course profile for all events is a roller coaster conglomeration of glacial features, typified by a rolling succession of 25- and 50foot climbs. While not a technically demanding course in terms of tricky switchbacks and narrow single-track trails, the Chequamegon Mountain Bike Festival racecourses simply wear you down with the never-ending changes of terrain and surface conditions.

Attention! All roads, trails are open to vehicle and atv traffic. Please be aware.

TIMING

Your race time is calculated using a **10:00 a.m. gun start time**. Your finish time will be determined by when your race number with transponder cross the finish line.
